Thursday

Friday

Saturday

No precipitation expected

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

High pressure off the CA coast will be our dominant weather feature through Friday. Afternoon temperatures will be 15-20 degrees above normal through Friday. NW-NE downslope surface winds will reach 25-35 mph in wind-prone areas from the western Sierra slopes to the coast until early this afternoon, with the strongest winds during the morning hours. Afternoon minimum RH readings will be 15-25% in inland areas affected by the winds, and 20-30% otherwise.

A weak low pressure trough will move across the region this weekend. Temperatures will be a few degrees cooler, but still above normal, and humidity will be higher. There will be a few clouds, but no rain is expected. A slightly stronger trough will move through Tuesday night and Wednesday with a few light showers possible, mainly in the north and east. A third system is expected late next week and into the weekend. This one is expected to produce more widespread rain with snow levels lowering during the weekend.

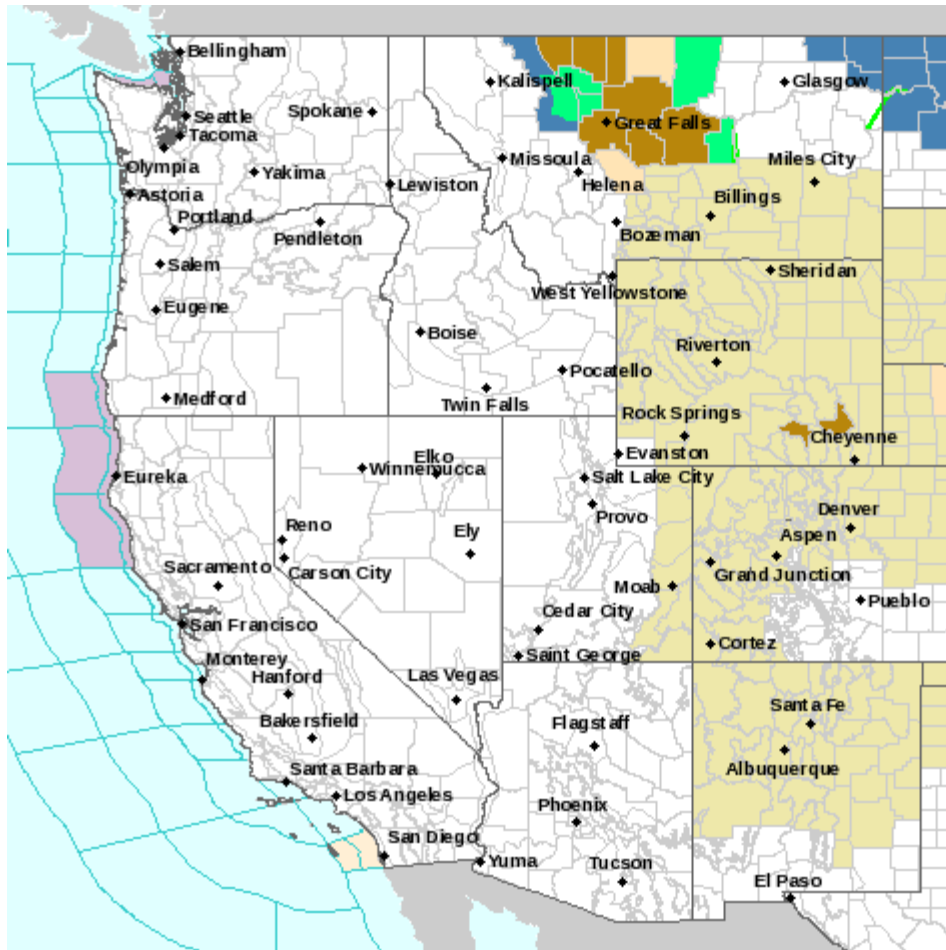

In general, the period through mid April will likely be characterized by stretches of warm, dry, and breezy weather lasting 1-4 days, interrupted by weak weather systems that will produce mostly light rain and high elevation snow, leading to overall drier and warmer than normal conditions.

SOUTHERN CALIFORNIA

Temperatures will warm a couple of degrees each day through Friday as a ridge of high pressure builds into California from the Pacific Ocean. Maximum temperatures will be in the mid 60s to mid 70s across the mountains and mid 70s to mid 80s in the valleys through Friday. A gradual cooling trend will occur Saturday through the middle of next week as the ridge of high pressure weakens and zonal flow takes place. Minimum humidity will be mainly between 15% and 30% away from the coastal areas through the middle of next week. There will be local gusty afternoon winds over the mountain ridges and desert passes Saturday through the middle of next week, otherwise winds will be light through the middle of next week.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-45922, 3/28/2018, 1754 hours,** IERCC advising of an InReach “SOS” activation at GPS coordinates 39.799239N -123.399596W plotting along river right of the Eel River South of Cherry Creek in Mendocino County. IERCC advised they had received texts from the R/O that one of their kayaking party had sustained major head trauma and was requesting emergency evacuation. At 1757 hours, LDO relayed the activation information to Mendocino County Sheriff’s Dispatch, which due to the medical exigency dispatched Cal Fire Helicopter. **Update:** 3/28/2018, 1959 hours, Cal Fire dispatch advising kayaking victim was airlifted via Reach Air Ambulance to Santa Rosa Memorial Hospital. IERCC updated. **Mission Closed.**
- **2018-LAW-45918, 3/28/2018, 1508 hours,** IERCC advising a SPOT “SOS” activation at GPS coordinates 38 02 58N -122 47 59W near Olema Creek, West of Hwy 1 in Marin County. IERCC attempted to contact R/O but all went to voicemail. **Update:** At 1522 hours, LDO made contact with R/O, an employee of the Pt. Reyes NPS, and learned the device was with a team of biologist working in the area of the given coordinates. R/O had made phone contact with the team and advised it was an accidental activation with no distress. IERCC updated. **Mission Closed**
- **2018-LAW-45912, 3/28/2018, 1121 hours,** Plumas County Sheriff’s Office (PCSO) requesting two specific SAR K9 teams to assist in searching for a missing 54 year old female last seen in the Chester area 2/21/2018. The requested resources are to meet for 0700 hours briefing this Saturday, 3/31/2018, in Chester. Cal OES LEB coordinated the response. **Mission On-going**
- **2018-LAW-45906, 3/28/2018, 1226 hours,** IERCC advising of an InReach “SOS” activation at GPS coordinates 36.896113N -117.501762 plotting on Racetrack Valley Road in Death Valley NPS. The R/O texted that he had two flat tires and was requesting roadside assistance as there was no cell service. IERCC had relayed the request to Death Valley NPS dispatch and Cal OES. **Update:** 3/28/2018, 1437 hours, Death Valley NPS advising a Ranger was with the R/O and tow was assisting them. **Mission Closed**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
